MEMORANDUM FOR: Chief, Intelligence Liaison Support

ATTENTION

25X1

SUBJECT : CCPC Working Group Study on Intelligence
Activities Against North Korea

The Subject report has been reviewed by a representative of the Special Security Center and the writer, and the following comments are offered:

Page 4, next to last line - The word through should be thorough.

Page 6, paragraph 4, line 3 - Useable should be usable.

Page 23, paragraph (2) (b) - In a narrow security sense this paragraph, as well as paragraph 2a on page 39, should be in the addendum containing the Special Security Controls, with the control stamping IDEALIST/TACKLE.

Regarding the wisdom of including a statement on vulnerability, I defer to OSA.

Page 24, paragraph (4), - The second paragraph could be changed to read BLACK SHIELD photography and that obtained from missions, etc.

25X1

Page 35, last two lines, et. seq. - This is a matter of consideration by SPINT staff.

Page 47 - I would change the word mission to photography on the next to last line on this page.

**SUBJECT: CCPC Working Group Study on Intelligence Activities
Against North Korea**

Page 54, paragraph 2b - I would change to read **BLACK SHIELD** photography was obtained on the North Korean target. -

Paragraph 2c, lines 2 and 3 - I would change to read -
to work on **BLACK SHIELD** imagery and to respond to other
requirements.- Paragraph 2d - I would change to read - Some
BLACK SHIELD photography has been prepared for release
to the at an appropriate future time.
